

# Resource requirements for establishing your business

Name .....

Centre .....

First gather important information on the resources you need to get your business up and running.

Research how you will find and manage resources such as:

- Finance: how much, where from
- Finding premises and renting or buying them
- Staff: how many, what qualifications and experience, how to recruit them
- Management skills
- Obtaining materials, equipment, plant; buying or renting
- Stock control: from where, how much, where you'll hold it control

Type of information	Where the evidence appears
Identify the financial requirements for the start up of your business
